

Marianne Bürgi
Swiss (born 1962)
Head of Global Products

Marianne Bürgi holds a degree in Business Economics and has an extensive experience in the field of medical device technology. She started as Project & Key Account Manager Spine at Synthes Europe and subsequently took over the management of the Business Unit Spine. Thereafter, she was Executive Vice President of the Division Market & Product Support at Institut Straumann, followed by the position as CEO of a start-up biotech company where she built-up the business structures. Marianne Bürgi joined Medartis in 2010 as Head of Global Products and is responsible for the product development.
