

Peter Weisskopf
Swiss (born 1959)
Head Operations

After his apprenticeship as a precision engineer in the watch industry, Peter Weisskopf was working in the production- and repair department of an automotive electronic company. He subsequently changed to Tschudin + Heid as Head of Quality Engineering before starting to be active as Head of Quality Engineering and Logistics in a branch establishment of Straumann AG. After working as Head of Quality Management for a battery manufacturer, Peter Weisskopf joined Medartis in 2001 as Head Quality Manager. He was appointed as Medartis' Head Operations Manager in 2005.
