

Willi Miesch

Swiss (born 1964)

Member of the Board of Directors since 2010

Willi Miesch assumed his responsibilities as CEO of Medartis in 1998. He is additionally member of the Board of Medartis as well as a Board Member of the International Bone Research Association (IBRA) and independent Board Member of Osiris Therapeutics Inc.. As a member of the Investment Advisory Committee of MTIP he contributes his sound expertise and extensive experience in the field of Medical Technology and plays a key role in the assessment and selection of MedTech start-ups.

Prior to joining Medartis, he held long-term managerial positions in various production departments of the Institut Straumann AG Switzerland and USA and was Head of Manufacturing at Stratec Medical in Mezzovico, Ticino, Switzerland. In these roles he was responsible for the overall manufacturing processes as well as for the manufacturing implementation of the spine product line. Moreover, he was a member of the Executive Management Board at Villiger, a bicycle manufacturer, being responsible for the entire technical part for several years.

Willi Miesch started with an apprenticeship as precision engineer at Institut Straumann AG and extended his qualifications through a degree as operations technician TS at ABB Engineering School Baden and postgraduate studies in market-oriented Business Management at the University of Central Switzerland.
